

Mustafa Hasnain

Frontend
Developer

PROFILE

I work closely with APIs and dynamic data to build interactive, real-world applications. My approach is practical and performance-driven, blending strong UI execution with clean architecture. I enjoy solving complex frontend challenges and believe thoughtful implementation can elevate both user experience and business outcomes.

WORK EXPERIENCE

Frontend Developer | SMBIZ
Feb 2024 – Nov 2025

Houston, Texas, United States | Remote

Product-based company where I worked on the core product as a Frontend Developer. I was responsible for developing scalable UI components, implementing responsive layouts.

Frontend Developer | Stacksols
Jan 2024 – Dec 2024

Karachi, Pakistan | Remote

Project-based company where I contributed to multiple client projects using diverse frontend technology stacks. I handled UI development, design-to-code implementation, and API integration across different applications while adapting quickly to varying project requirements and timelines.

Senior Web Developer | SARO
Feb 2024 – July 2024

Coventry, England, United Kingdom | Remote

Product-based company where I worked on a multi-host broadcast application and shoppable reels platform. Led frontend development efforts, implemented complex UI flows, integrated real-time data, and optimized performance for high-traffic user interactions.

Software Developer | Shining Moon Digital
Feb 2023 – Sep 2023

Texas, United States | Remote

Project-based company where I worked on multiple web projects using React and Shopify. Delivered pixel-perfect frontend implementations, customized Shopify themes and sections, and integrated APIs to build interactive, user-focused experiences.

EDUCATION

- KIET - Bachelor in Computer Science
Completed in 2025

SKILL

- React JS
- Next JS
- Typescript
- Shopify
- Tailwind CSS
- GIT
- Postman

CERTIFICATION

**Certificate In Information
Technology**

[Responsive Web Design - 2019](#)

Junior Software Developer | One Technology Services

Feb 2022 – Jul 2022

Springfield, Illinois, United States | Remote

Product-based company where I worked on an automated auto repair shop management system (derouze.ai). Contributed to frontend development by building responsive interfaces, integrating APIs, and maintaining UI consistency across the platform.

Angular Developer | TechPort Solutions

Sep 2021 – Dec 2021

Dubai, United Arab Emirates | Remote

Product-based company where I worked on an ERP system (eKonten ERP). Developed reusable React components, implemented dynamic dashboards, and integrated backend services to support enterprise-level workflows.
